

PREMIUM INDUCTION COOKTOP

With Le Piano, cooking now comes with freedom of expression in the form of 100% "open space" cooking zone!

Place the cooking pots and pans anywhere on the hob and Le Piano takes over, determining where the pot sits on the hob and adjusting the temperature accordingly.

Another revolutionary function of Le Piano allows new home cooks and experienced home chefs alike to choose from pre-set cooking modes:

- **"Solo" Mode**

The entire cooking area is set at a uniform temperature to cook several dishes at the same time with the same setting.

- **"Piano" Mode**

Obtain 3 separate and independent cooking zones, each with its own adjustable setting. In this setting, you can keep a dish warm on one zone, simmer another dish on the second and boil on the third.

- **"Expert" Function**

The "Expert" function recognises the cooking pans and memorises chosen settings. The pans can be moved anywhere on the hob surface and the settings remain programmed (up to 5 different saucepans at the same time).
